Stay Ahead of Substance Abuse

Don't be a guinea pig. *The Marijuana industry wants to manipulate you. Make your own choices.*

PMP Teen Messaging Advocates are educating their peers about the risks of marijuana in their own words.

THE BLUNT TRUTH ABOUT MARIJUANA

- 1 of 6 teens who use marijuana will develop an addiction
- THC causes impairment and impairment is always high-risk
- Marijuana is now 20%-98% THC, compared to 1-5% 20 years ago
- Smokable and edible marijuana ads today, deliberately target youth

KNOW YOUR CHOICES

Low-risk choices protect things that are important to you.
High-risk choices put those things at risk.
